

SUPPLEMENT TO AGREEMENT FLYM-AGR-2026-003

Project Clarification & Service Terms

Clarification and service terms for Agreement FLYM-AGR-2026-003, prepared for D Sculpt Fitness by Flym Technologies.

REFERENCE AGREEMENT

FLYM-AGR-2026-003

ORIGINAL AGREEMENT DATE

19 Aug 2026

CLIENT

D Sculpt Fitness

SERVICE PROVIDER

Flym Technologies

Purpose of this document

This document supplements and clarifies the existing Project Agreement (FLYM-AGR-2026-003) dated 19 August 2026. It does not change the scope or the agreed project value – it exists to remove ambiguity around hosting, the domain, ongoing support, future improvements and the payment position, so that everything is easy to understand ahead of our upcoming meeting.

- ✓ Nothing in this document increases the ₹47,000 project value or introduces a new charge for the agreed scope.

01 Commercial Summary

The figures below match the original signed Agreement. There is no change to the project value.

Original agreed project value	₹47,000
Amount received to date	₹20,000
Outstanding balance	₹27,000
FINAL PROJECT INVESTMENT	₹47,000

- ✓ There are no additional charges for the agreed project scope. The outstanding balance of ₹27,000 is payable as set out in the original Agreement, on delivery/handover.

02 Project Scope

The scope below is unchanged from the original signed Agreement and remains the complete, fixed-price scope of work.

MEMBER MANAGEMENT

- Member registration & profiles
- Membership renewals & expiry tracking
- Payment & due tracking
- Member search, filters & photos

QR CHECK-IN APP

- Unique QR code per member
- Scan-to-check-in at gym entrance
- Check-in log visible to staff/admin

PLANS, BILLING & REPORTS

- Membership plans & invoice generation
- Revenue, dues & expiry reports
- Dashboard with business insights

OPERATIONS & PLATFORM

- Staff management & expense tracking
- WhatsApp reminders
- Secure cloud hosting
- Custom branding
- Progressive Web App (PWA)

Hosting, Domain & Support

03 Hosting & Data Server

FLYM-MANAGED INFRASTRUCTURE

Flym Technologies manages the cloud/data server infrastructure required for the operation of the platform. This covers everything needed to keep D Sculpt Fitness's application, database and check-in system running securely.

✔ There is no separate server management or hosting charge to D Sculpt Fitness under the current project arrangement – this is already covered within the ₹47,000 project value.

04 Domain & Domain Renewal

This section is worth reading carefully – a domain is often confused with the website or the software itself.

IN PLAIN TERMS

A **domain** is simply the internet address or URL used to access a website – for example, **dsculptfitness.com**. The domain is **not** the website itself, the gym management software, the database, or the hosting/server.

DOMAIN

The website address / URL people type or tap to reach the app.

WEBSITE / SOFTWARE

The actual gym management application and its features.

HOSTING

The infrastructure where the application runs and stores data.

Registration handled by	Flym Technologies, for the initial registration period
Current registration valid until	August 2027
Next renewal due	August 2027
Current registrar renewal price	Approximately ₹800
Expected renewal cost	Less than ₹1,000 / year

PLEASE NOTE

The renewal price is not guaranteed to always be ₹800 – registrar pricing can change over time. The actual renewal amount will depend on the registrar's applicable pricing at the time of renewal. Domain renewal is a third-party recurring registration cost – it is **not** a development charge, not a charge for the website/software, and not a hosting charge. It is simply the recurring cost required to keep the chosen domain name registered.

✔ Before the August 2027 renewal, Flym Technologies will inform D Sculpt Fitness of the applicable renewal amount and obtain confirmation/payment before proceeding.

Support, Future Work & Handover

05 Bug Fix & Ongoing Support

INCLUDED, AT NO EXTRA COST

Flym Technologies will provide ongoing support for genuine bugs or errors affecting the agreed functionality of the delivered system, without additional development charges.

A **bug** is an issue where an existing agreed feature or functionality does not work as intended – for example: QR check-in failing due to an implementation issue, an existing invoice calculation behaving incorrectly, existing member functionality stopping working, or existing agreed functionality breaking.

06 Future Features & Improvements

Features and improvements that can reasonably be developed within the existing Flym platform will be provided without additional development charges, subject to technical feasibility and mutual discussion.

07 Third-Party Services & External Costs

Flym's development and support work is separate from third-party recurring costs that sit outside our control – for example, domain registration/renewal, paid third-party APIs, payment gateway charges, WhatsApp/communication provider charges, or other external subscriptions and services. If any third-party service requires a payment, Flym will communicate the applicable cost to D Sculpt Fitness before the cost is incurred, wherever reasonably possible.

08 Additional Work & Scope Clarity

To keep things simple, work falls into one of four categories:

- ✓ **Existing bugs** – covered under ongoing support, no charge.
- ✓ **Reasonable improvements/features within the Flym platform** – no development charge, subject to feasibility.
- ✓ **Third-party costs** – passed through transparently, communicated in advance.
- ✓ **Work requiring fundamentally new systems, external products, hardware or infrastructure** – scoped and quoted separately, only after discussion and approval.

Testing, Handover & Signatures

09 Testing & Handover

Before handover, the following steps are completed:

- ☒ Final testing of all agreed functionality
- ☒ Deployment & configuration
- ☒ Member access set up
- ☒ Final handover to D Sculpt Fitness
- ☒ Bug correction before handover
- ☒ Owner/admin access set up
- ☒ Domain connected

FINAL BALANCE

The final balance payable on handover is ₹27,000, per the original Agreement's payment schedule.

10 General Terms

- 10.1 Both parties agree to keep business, member and financial information shared during this engagement confidential.
- 10.2 Client data (member records, business information) remains the property of D Sculpt Fitness.
- 10.3 Delivery of certain features may depend on third-party services (e.g. WhatsApp, payment or communication providers) operating as expected.
- 10.4 Future features and improvements are provided subject to technical feasibility.
- 10.5 Flym Technologies is responsible for domain registration and renewal notifications. Any applicable domain renewal fee will be payable by D Sculpt Fitness after confirmation of the renewal amount.
- 10.6 **This document supplements and clarifies the original Agreement (FLYM-AGR-2026-003).** Where this document specifically clarifies or modifies the terms relating to hosting, domain, support, future improvements and payment, the terms stated in this document shall apply.
- 10.7 By signing below, both parties acknowledge and agree to the clarified terms set out in this document.
